the importance of sterilisation

In the world of modern healthcare, maintaining a sterile environment is critical to ensuring patient safety. Proper sterilisation of instruments is a fundamental aspect of infection control, safeguarding both the patient and the practitioner from harmful microorganisms that could be transmitted through contaminated instruments. Sterilisation is not just a recommended practice but a professional obligation that protects the integrity of treatments and builds trust with patients.

Effective sterilisation helps to prevent cross-contamination, reduces the risk of infections, and supports compliance with health regulations and standards. By ensuring that all instruments are thoroughly sterilised, healthcare providers demonstrate a commitment to high standards of care and operational excellence.

expanding your product line

At Premium Plus, we offer a comprehensive Sterilisation Range designed to meet the highest standards of hygiene and safety. Our selection of sterilisation pouches, rolls, and cassettes ensures reliable performance, integrating seamlessly into daily workflow and delivering efficient performance across a variety of instruments and procedures. By choosing our products you are offering trusted, high-performance sterilisation solutions that meet the needs of your customers and their practices.

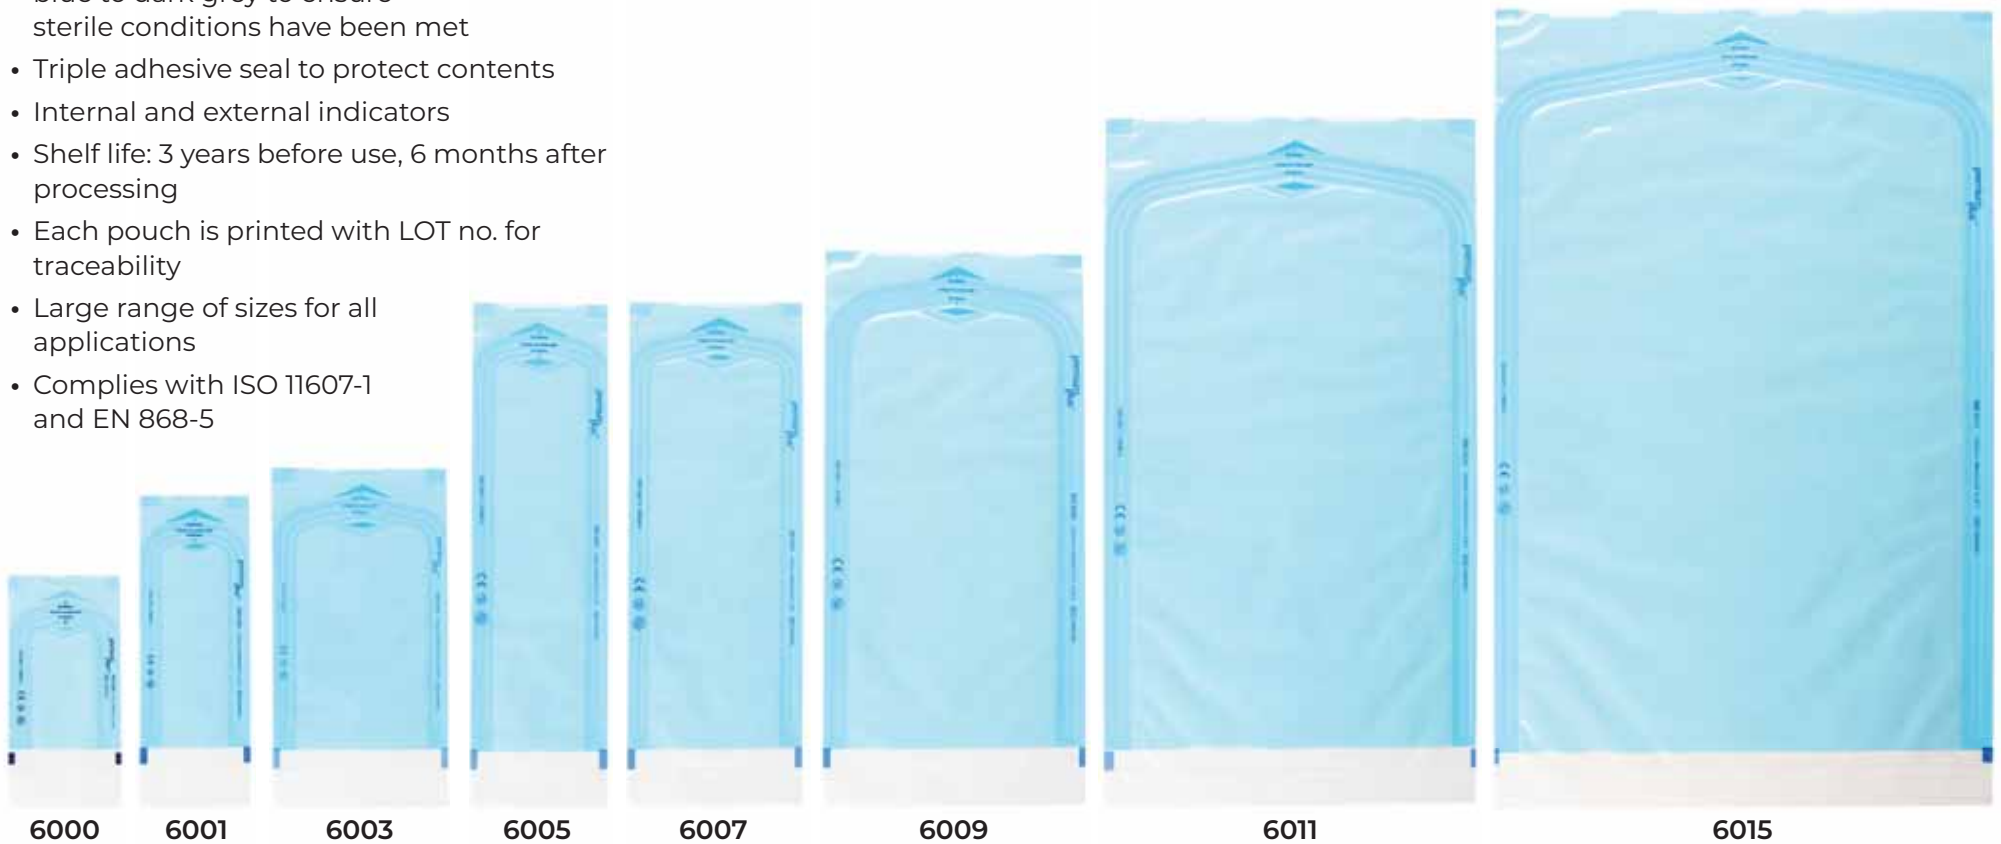

sterilisation pouches

Sterilisation pouches provide an easy sealing system that eliminates the need for expensive heat-sealing equipment. This ensures a uniform seal that withstands the sterilisation process and keeps instruments sterile.

- Manufactured from 70 gsm medical grade paper and 60 µm blue tinted film to help detect puncture holes
- Easy to read steam indicators change from blue to dark grey to ensure sterile conditions have been met
- Triple adhesive seal to protect contents
- Internal and external indicators
- Shelf life: 3 years before use, 6 months after processing
- Each pouch is printed with LOT no. for traceability
- Large range of sizes for all applications
- Complies with ISO 11607-1 and EN 868-5

6000	57 mm x 90 mm	(200 pcs/box)	6007	90 mm x 230 mm	(200 pcs/box)
6001	57 mm x 130 mm	(200 pcs/box)	6009	135 mm x 260 mm	(200 pcs/box)
6003	90 mm x 145 mm	(200 pcs/box)	6011	190 mm x 330 mm	(200 pcs/box)
6005	70 mm x 230 mm	(200 pcs/box)	6015	250 mm x 380 mm	(100 pcs/box)

sterilisation rolls

Sterilisation rolls are essential in healthcare and laboratory settings for their cost-effective and customizable sterilisation solutions. These rolls allow users to create pouches of varying lengths, accommodating instruments of different sizes while minimizing waste. Designed to withstand autoclaving temperatures, sterilisation rolls ensure a secure, uniform seal that maintains sterility until instruments are needed. Their transparent panels enable easy identification of contents without compromising sterility.

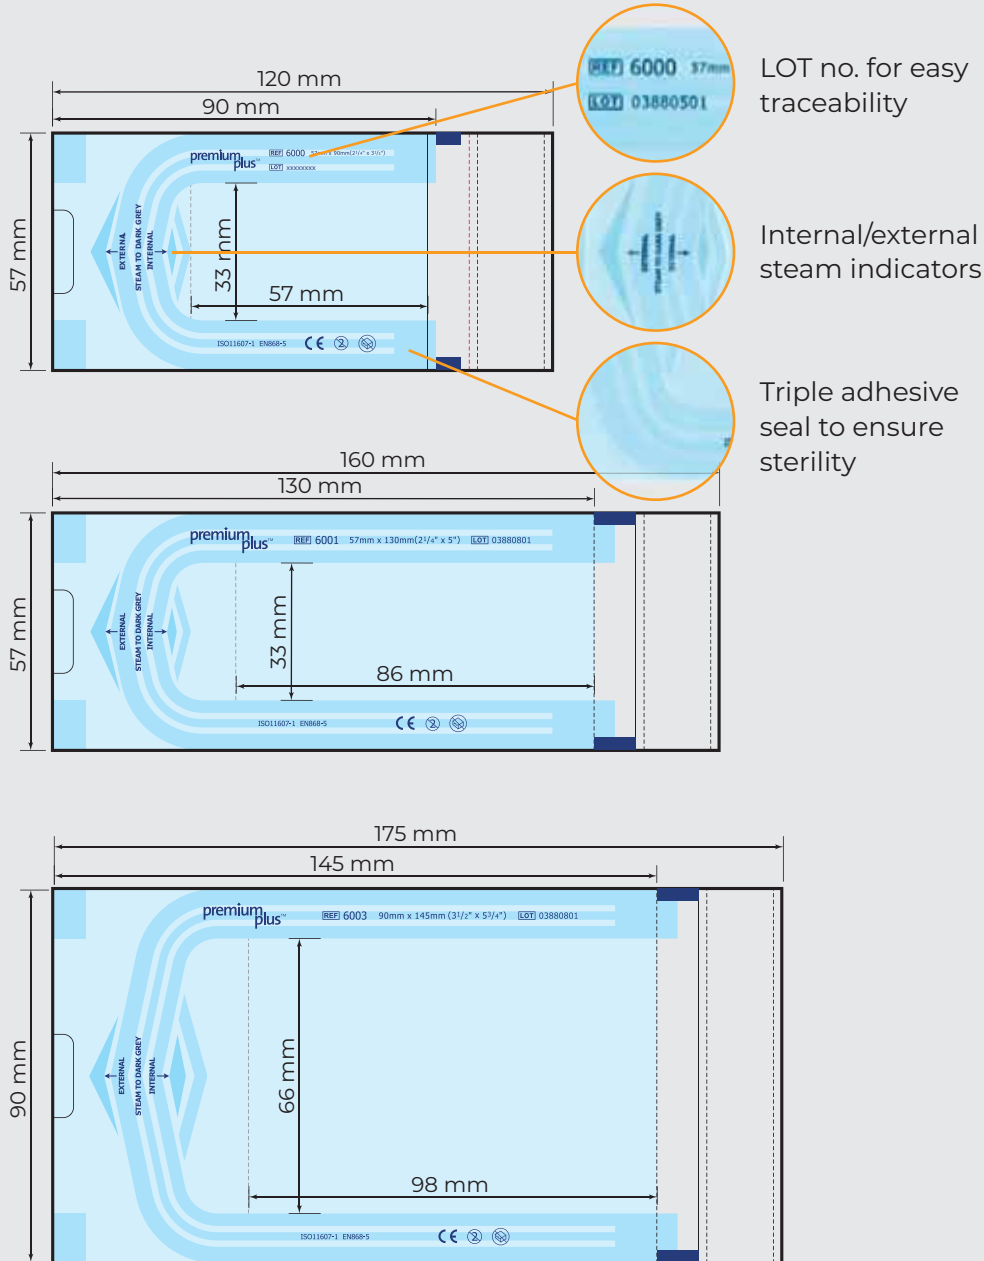

- Designed for use with a suitable heat-sealing equipment or autoclave tape to seal each end of the roll after being cut to size.
- Manufactured from 70 gsm medical grade paper and 60 µm blue tinted film to help detect puncture holes
- Triple adhesive seal to protect contents
- Easy to read external steam indicators change from blue to dark grey to ensure sterile conditions have been met
- Three universal sizes for all applications
- Complies with ISO 11607-1 and EN 868-5

about Premium Plus

With over 50 years of experience in the dental industry, we specialise in the manufacturing and distribution of high-quality dental products that combine precision, affordability, and innovation. Our extensive knowledge ensures that every product we offer meets the highest standards of quality, supporting dental professionals worldwide.

Since 2011, we've been serving the European market, initially from the UK and, since 2020, from our distribution centre located in Poland. We are proud to be part of the global Premium Plus partnership, with strong connections across Hong Kong, the USA, Australia, Japan, and Europe. Our 10,000-square-meter facility allows us to deliver premium products at competitive prices.

Mission Statement

Remember your first visit to the dentist? For many, it meant a stark room, unsettling sounds, and a wave of anxiety.

At Premium Plus, we're on a mission to change that. We believe a bright, healthy smile can uplift your entire day. That's why we've created a vibrant range of products to make dental care a positive, joyful experience. Our high-quality designs bring warmth and comfort to practices, helping patients relax and smile with confidence.

why buy from us?

We understand that in today's fast-paced environment, you need more than just a product – you need a partner who supports your business every step of the way. That's why we offer:

Regulatory Compliance

Full adherence to regulatory requirements, so you can be assured of the quality and safety of our products.

Marketing Support

Tailored marketing assets such as flyers, catalogues, product photos and more, to help you stand out and grow your business with our support.

Product Training

Comprehensive training to ensure your team is fully equipped to use and promote our products with confidence.

Logistics Support

Reliable and efficient logistics solutions, ensuring timely delivery of your products every time.

Manufacturing Experience

Decades of expertise in producing dental products that consistently meet industry standards and exceed expectations.
